TABLE OF CONTENTS

Course overview.....4

Learning outcomes.....4

Daily schedule.....5

Governance and Drive content lifecycle.....5

- Activity 1 Content policy and identity boundaries Slide 19.....5
- Activity 2 Drive ownership and team structure Slide 28.....6
- Activity 3 Sharing and effective access audit Slide 37.....6
- Activity 4 Posting lifecycle and asset metadata Slide 46.....6
- Activity 5 Search recovery and version diagnosis Slide 55.....6

Content assets and customer web properties.....7

- Activity 6 Docs structure and collaborative review Slide 65.....7
- Activity 7 Docs templates and publication readiness Slide 74.....7
- Activity 8 Sheets import schema and data validation Slide 83.....7
- Activity 9 Sheets formulas and operational checks Slide 92.....7
- Activity 10 Filter views pivots and editable charts Slide 101.....8
- Activity 11 Slides assets and customer presentation Slide 110.....8
- Activity 12 Forms publication consent and response schema Slide 119.....8
- Activity 13 Forms validation and customer feedback analysis Slide 128.....8
- Activity 14 Gmail routing labels and search controls Slide 137.....9
- Activity 15 Gmail delegation and customer response governance Slide 146.....9
- Activity 16 Calendar availability and booking boundaries Slide 155.....9
- Activity 17 Meet collaboration and recording controls Slide 164.....9
- Activity 18 Chat spaces tasks and whiteboarding replacement Slide 173.....10
- Activity 19 Sites architecture navigation and draft content Slide 182.....10
- Activity 20 Sites publishing embed access and maintenance Slide 191.....10
- Activity 21 CMS market offerings and weighted selection Slide 200.....10

Metrics add-ons and integration decisions.....11

- Activity 22 Workspace metrics and evidence provenance Slide 210.....11
- Activity 23 Visitor journey funnel and improvement tests Slide 219.....11
- Activity 24 Add-on selection scopes and administrator controls Slide 228.....11
- Activity 25 Apps Script and API integration contract Slide 237.....12

Course overview

C148 · 2 days · 15 instructional hours (9:30am – 5:30pm, 7.5 hours per day): 900 teaching minutes across three topics and 25 hands-on Activities.

Learning outcomes

Outcome	Capability
LO1	Implement content management policies and post and update content using Google Drive.
LO2	Maintain web properties and assets, create and curate content, and maintain awareness of market offerings.
LO3	Report performance metrics, recommend appropriate add-ons, and generate ideas to improve customer and visitor experience.

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Daily schedule

Day / time	Minutes	Session	Method	Slides
Day 1 09:30–10:00	30	Admin, baseline and access readiness	Discussion	—
Day 1 10:00–12:15	135	Activities 1–5; Drive governance + demos	Mechanism demo / practice	11–55; also 238,239,240,241
Day 1 12:15–12:45	30	Activity 6; Docs review + demo	Paired review	57–65
Day 1 12:45–13:15	0	Lunch	Break	—
Day 1 13:15–15:15	120	Activities 7–10; Docs/Sheets + demos	Guided practice	66–101; also 246,247,248,249,250,251,252,253
Day 1 15:15–16:30	75	Activities 11–13; Slides/Forms	Practice / evidence review	102–128; also 254
Day 1 16:30–17:30	60	Activities 14–15; Gmail + review	Practice / evidence review	129–146
Day 2 09:30–11:30	120	Activities 16–18; Calendar/Meet/Chat + demo	Paired practice	147–173; also 244,245
Day 2 11:30–12:45	75	Activities 19–20; Sites	Practice / source analysis	174–191
Day 2 12:45–13:15	0	Lunch	Break	—
Day 2 13:15–14:00	45	Activity 21; CMS offerings comparison	Practice / source analysis	192–200; also 242,243,255
Day 2 14:00–15:30	90	Activities 22–23; metrics and visitor journey	Analysis	202–219; also 256,257,258,259
Day 2 15:30–16:15	45	Activity 24; add-on selection	Analysis / administrator review	220–228
Day 2 16:15–17:00	45	Activity 25; Apps Script integration	Guarded code	229–237
Day 2 17:00–17:30	30	Review, Q&A and course feedback	Discussion	260

Teaching minutes sum 900: 450 per day, 7.5 instructional hours. Each day runs 9:30am – 5:30pm with a single 30-minute lunch outside teaching time; refreshments are taken during activity time. Activity durations plus facilitator demos and review fit each scheduled block.

Governance and Drive content lifecycle

Divider slide 10; teaching range 10–55; LO1

Activity 1 Content policy and identity boundaries Slide 19

20 minutes; slides 11–19

Completed policy covers classification, ownership, posting, review and exceptions; access evidence names the tested account and role.

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Additional mechanism/chart slides: 238,239,240,241. Teach during the block’s demo/review allocation.

Resources: Drive, Docs; administrator demonstration; activities/activity-01-content-policy-and-identity-boundaries/

Facilitator check: Restrict actual sharing and test another identity

Activity 2 Drive ownership and team structure Slide 28

20 minutes; slides 20–28

Folder structure and ownership register distinguish individual from organisation ownership; least-privilege role and unavailable-feature fallback are recorded.

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

Additional mechanism/chart slides: None. Teach during the block’s demo/review allocation.

Resources: Drive; shared drive if available; activities/activity-02-drive-ownership-and-team-structure/

Facilitator check: Use fallback; record limitation

Activity 3 Sharing and effective access audit Slide 37

25 minutes; slides 29–37

Access register identifies all four grant paths; one approved allow and one uninvited deny outcome are recorded for the exact training asset.

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

Additional mechanism/chart slides: None. Teach during the block’s demo/review allocation.

Resources: Drive, two test identities; activities/activity-03-sharing-and-effective-access-audit/

Facilitator check: Inspect and correct each authorised path

Activity 4 Posting lifecycle and asset metadata Slide 46

20 minutes; slides 38–46

One current P-101 source is registered, price is SGD 49, approval checkpoint and viewer evidence exist, and obsolete reference is retired.

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

Additional mechanism/chart slides: None. Teach during the block’s demo/review allocation.

Resources: Drive, Docs, Sheets; activities/activity-04-posting-lifecycle-and-asset-metadata/

Facilitator check: Replace public reference; verify release ID

Activity 5 Search recovery and version diagnosis Slide 55

20 minutes; slides 47–55

Correct checklist identity is found and the approved address verification line is restored with an inspectable recovery log.

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

Additional mechanism/chart slides: None. Teach during the block's demo/review allocation.

Resources: Drive, Docs; activities/activity-05-search-recovery-and-version-diagnosis/

Facilitator check: Test known URL and invited identity

Content assets and customer web properties

Divider slide 56; teaching range 56–200; LO2

Activity 6 Docs structure and collaborative review Slide 65

25 minutes; slides 57–65

Heading outline works; supported 14-day return correction is accepted, unsupported change rejected, and approved version evidence is saved.

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

Additional mechanism/chart slides: None. Teach during the block's demo/review allocation.

Resources: Docs, Drive; activities/activity-06-docs-structure-and-collaborative-review/

Facilitator check: Apply Heading 1/2 to structure

Activity 7 Docs templates and publication readiness Slide 74

20 minutes; slides 66–74

Brochure has no template placeholders or internal cost, accurate product facts, a tested descriptive link, and a readable approved PDF.

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

Additional mechanism/chart slides: None. Teach during the block's demo/review allocation.

Resources: Docs, Drive; activities/activity-07-docs-templates-and-publication-readiness/

Facilitator check: Search for double-brace markers

Activity 8 Sheets import schema and data validation Slide 83

25 minutes; slides 75–83

Clean sheet contains 12 unique enquiries, valid stages and numeric amounts; duplicate/type decisions and invalid-input rejection are evidenced.

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

Additional mechanism/chart slides: None. Teach during the block's demo/review allocation.

Resources: Sheets; activities/activity-08-sheets-import-schema-and-data-validation/

Facilitator check: Test ISNUMBER; correct source/import

Activity 9 Sheets formulas and operational checks Slide 92

25 minutes; slides 84–92

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Total 12, Won 3, Won revenue SGD 960, conversion 25%, average won SGD 320 all match hand calculation and report labels identify the cohort.

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

Additional mechanism/chart slides: 246,247,248,249,250,253. Teach during the block's demo/review allocation.

Resources: Sheets; activities/activity-09-sheets-formulas-and-operational-checks/

Facilitator check: Align row 2:13 on both ranges

Activity 10 Filter views pivots and editable charts Slide 101

25 minutes; slides 93–101

Filter view does not disrupt peer view; pivot counts 4/3/3/2 total 12; chart is editable and correctly labels enquiry counts.

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

Additional mechanism/chart slides: 251,252. Teach during the block's demo/review allocation.

Resources: Sheets; activities/activity-10-filter-views-pivots-and-editable-charts/

Facilitator check: Use a filter view instead

Activity 11 Slides assets and customer presentation Slide 110

20 minutes; slides 102–110

Three customer slides use approved facts, clear visual hierarchy and synthetic-data chart label; private cost details are absent and viewer access is verified.

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

Additional mechanism/chart slides: None. Teach during the block's demo/review allocation.

Resources: Slides, Sheets, Drive; activities/activity-11-slides-assets-and-customer-presentation/

Facilitator check: Review current data and refresh deliberately

Activity 12 Forms publication consent and response schema Slide 119

25 minutes; slides 111–119

Published responder link works; consent is required; private results summary is off; response sheet stays restricted and synthetic response is correctly captured.

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

Additional mechanism/chart slides: None. Teach during the block's demo/review allocation.

Resources: Forms, Sheets; activities/activity-12-forms-publication-consent-and-response-schema/

Facilitator check: Publish to authorised training responders

Activity 13 Forms validation and customer feedback analysis Slide 128

25 minutes; slides 120–128

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Validated 10-response sample has mean 3.6/5 and 6/10 positive ratings; report labels synthetic scope and proposes a measurable website improvement.

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

Additional mechanism/chart slides: 254. Teach during the block's demo/review allocation.

Resources: Forms, Sheets; activities/activity-13-forms-validation-and-customer-feedback-analysis/

Facilitator check: Validate 1..5 and quarantine invalid rows

Activity 14 Gmail routing labels and search controls Slide 137

20 minutes; slides 129–137

Positive and negative message tests match the declared criteria; action is label only and the report distinguishes reply criteria from conversation grouping.

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

Additional mechanism/chart slides: None. Teach during the block's demo/review allocation.

Resources: Gmail; activities/activity-14-gmail-routing-labels-and-search-controls/

Facilitator check: Preview and narrow subject/sender

Activity 15 Gmail delegation and customer response governance Slide 146

20 minutes; slides 138–146

Access design distinguishes mailbox account from alias, documents delegate scope and revocation, and produces a fact-checked customer response without shared credentials.

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

Additional mechanism/chart slides: None. Teach during the block's demo/review allocation.

Resources: Gmail; delegation demonstration; activities/activity-15-gmail-delegation-and-customer-response-governance/

Facilitator check: Use correct mailbox architecture

Activity 16 Calendar availability and booking boundaries Slide 155

20 minutes; slides 147–155

Booking route: timezone is correct, configured busy slot is excluded and a test booking creates an event. Standard-event fallback: invitation displays the same Singapore/UTC instant and intended audience; booking checks are explicitly Not executed.

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

Additional mechanism/chart slides: None. Teach during the block's demo/review allocation.

Resources: Calendar; activities/activity-16-calendar-availability-and-booking-boundaries/

Facilitator check: Review conflict-calendar selection

Activity 17 Meet collaboration and recording controls Slide 164

20 minutes; slides 156–164

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Approved tab only is shared, written decision and two owned actions persist, and recording limitations/privacy controls are accurately documented.

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

Additional mechanism/chart slides: 245. Teach during the block’s demo/review allocation.

Resources: Meet, Calendar, Drive; activities/activity-17-meet-collaboration-and-recording-controls/

Facilitator check: Use written record; note limitation

Activity 18 Chat spaces tasks and whiteboarding replacement Slide 173

20 minutes; slides 165–173

Persistent discussion or documented fallback, owned task and three measurable ideas exist; no instructions depend on retired Jamboard.

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

Additional mechanism/chart slides: 244. Teach during the block’s demo/review allocation.

Resources: Chat, Slides, Tasks if available; activities/activity-18-chat-spaces-tasks-and-whiteboarding-replacement/

Facilitator check: Share approved asset to intended members

Activity 19 Sites architecture navigation and draft content Slide 182

30 minutes; slides 174–182

Four task-oriented pages with approved facts and a documented independent embed ACL exist; delivery terms are discoverable within 2 clicks in the test.

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

Additional mechanism/chart slides: None. Teach during the block’s demo/review allocation.

Resources: Sites, Docs, Drive; activities/activity-19-sites-architecture-navigation-and-draft-content/

Facilitator check: Share approved release file appropriately

Activity 20 Sites publishing embed access and maintenance Slide 191

30 minutes; slides 183–191

Exact published site, brochure and form work for intended viewer; response sheet denies unauthorised access and maintenance checklist has resolved findings.

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

Additional mechanism/chart slides: None. Teach during the block’s demo/review allocation.

Resources: Sites, Drive, Forms; activities/activity-20-sites-publishing-embed-access-and-maintenance/

Facilitator check: Share approved file with intended audience

Activity 21 CMS market offerings and weighted selection Slide 200

25 minutes; slides 192–200

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Comparison covers Google Sites plus 2 offerings with dated primary sources, weights 100, correct 3.65/3.90/3.45 scores and a mandatory-constraint decision.

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

Additional mechanism/chart slides: 242,243,255. Teach during the block's demo/review allocation.

Resources: Sheets, browser research; activities/activity-21-cms-market-offerings-and-weighted-selection/

Facilitator check: Normalise weights to 100

Metrics add-ons and integration decisions

Divider slide 201; teaching range 201–237; LO3

Activity 22 Workspace metrics and evidence provenance Slide 210

30 minutes; slides 202–210

Report correctly shows 60 view events and 50% defined collaboration across 4 edited docs, with explicit synthetic source, population and limitation notes.

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

Additional mechanism/chart slides: 256,257,259. Teach during the block's demo/review allocation.

Resources: Sheets; Admin reporting demonstration; activities/activity-22-workspace-metrics-and-evidence-provenance/

Facilitator check: Label view events and source population

Activity 23 Visitor journey funnel and improvement tests Slide 219

25 minutes; slides 211–219

Funnel and ratios are correct and labelled synthetic; three ideas name friction, owner, measure, threshold and test period.

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

Additional mechanism/chart slides: 258. Teach during the block's demo/review allocation.

Resources: Sheets, Sites; activities/activity-23-visitor-journey-funnel-and-improvement-tests/

Facilitator check: Label each ratio explicitly

Activity 24 Add-on selection scopes and administrator controls Slide 228

25 minutes; slides 220–228

One current add-on is evaluated with actual dated listing/access evidence, fit and data handling, administrator approval route, pilot checks and revocation/exit plan.

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

Additional mechanism/chart slides: None. Teach during the block's demo/review allocation.

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Resources: Marketplace, Sheets; administrator review; activities/activity-24-add-on-selection-scopes-and-administrator-controls/

Facilitator check: Submit review request; do not bypass

Activity 25 Apps Script and API integration contract Slide 237

30 minutes; slides 229–237

User edit C2 creates E2 timestamp; header/unrelated edits are ignored; report correctly states simple-trigger auth/runtime and programmatic-edit boundaries.

Method: explain mechanism and contract; inspect worked artifact; compare fault/control evidence; complete activity procedure; verify with exact output or intended identity.

Additional mechanism/chart slides: None. Teach during the block's demo/review allocation.

Resources: Sheets, Apps Script; optional developer extension; activities/activity-25-apps-script-and-api-integration-contract/

Facilitator check: Edit the training sheet column C

Resources required

Browser, training accounts, projector, currentGoogle product access, local 25 Activity packages and synthetic files. Admin-only demonstrations are led by authorised trainer/admin. Account-dependent features use documented fallback evidence.
